# FOUNDATION COURSE IN GENERAL PRACTICE NURSING

## Who is the course for?

NMC registered nurses who are post 12 months qualified but new to general practice to develop their skills and experience to increase confidence in delivery of primary care.

\*Nurses qualified within the last 12 months have access to the Fellowship program\*

## Feedback from last year

“Every teaching session has been informative and interactive”

“The lecturers and speakers not only taught me valuable clinical skills and theory but also helped to build my confidence as a practice nurse and member of the primary care multidisciplinary team”

## What does the course cover?

Delivered over 25 weeks there is a fully inclusive timetable including;

- \* Chronic disease management
- \* Family planning
- \* Male & Female health
- \* Cytology
- \* Immunisations and much more!

You will also receive support in developing your professional portfolio.
